

**SARGAZO  
GLOBAL**  
ENVIRONMENTAL SOLUTIONS

**SARGAZO GLOBAL**  
**The Future of Sargassum**  
FROM WASTE TO WEALTH

# FROM OCEAN TO SOIL

We turn an **environmental catastrophe** into a **billion-euro opportunity** and deliver measurable ecological and financial **impact**.

# THE PROBLEM

## SARGASSUM CRISIS:

**20 million tons annually**

– destroying coastlines and ecosystems with toxic emissions.

## BILLIONS IN DAMAGES:

**Economic losses** in tourism, fisheries, and infrastructure.

## SOIL AT RISK:

Chemical fertilizers destroy fertility and contaminate groundwater.

## CLIMATE CHANGE:

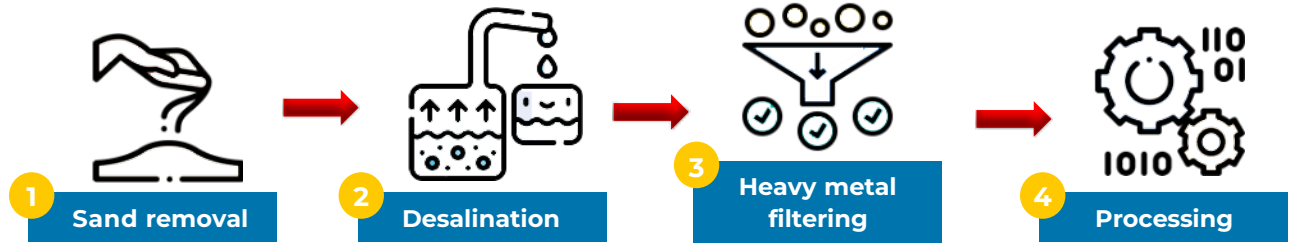

Agriculture **contributes 11% to global CO<sub>2</sub> emissions** – sustainable solutions are missing.

# THE SOLUTION

## Revolutionizing Sargassum - A Proprietary Enzymatic Process

OUR C.D.R.B.  
PROCESS:

### Breakthrough Benefits:

**ROI from Waste:** Transforming Environmental Waste into Profitable Resources.

**Regenerative Agriculture:** Boost yields, regenerate soils, and reduce CO<sub>2</sub> emissions.

**Circular Economy:** Sustainable bio-fertilizers replace chemical alternatives.

**27 Unique Innovations:** Pharma, cosmetics, and animal feed – a future billion-euro market.

# MARKET OPPORTUNITIES

## €5B MARKET VOLUME (2026)

Organic fertilizer market **growing at**

**7.87%**  
annually

## GERMANY AS A GATEWAY:

**Europe's largest organic market** (€16B/year) - making it the strategic entry point into the EU.

## PROVEN EU FUNDING SUPPORT:

Up to

**€20M** ↑

available via Horizon Europe and LIFE programs to drive innovation and growth.

## MARKET LEADERSHIP POTENTIAL:

### THE PIONEER

in Sargassum-Based Fertilizers for Europe's Organic Market.

# PRODUCTS

## Revolutionizing Agriculture with El Orgullo de México

Europe's first organic fertilizer from Sargassum with natural plant hormones.

### Proven Results:

- ✔ Scientifically proven: 35% higher yields.
- ✔ Restores soil fertility and improves scalability.
- ✔ Outperforms competitors in cost and efficiency.

### Future Vision – 27 Innovations:

-  **Pharma:** Fucoidan for immune support and health solutions.
-  **Cosmetics:** Fucoxanthin as an anti-aging compound.
-  **Animal Feed & Oils:** Renewable, eco-friendly additives.

# BUSINESS MODEL

## SCALABLE REVENUE POTENTIAL

GERMANY (2025)

**€250K – €300K**  
in the first year.

EU EXPANSION (2026)

**€3.4M – €6.8M**  
Scaling operations

LONG-TERM GOALS (2030)

**€20M – €36M**  
through global scaling  
and diversification.

## REVENUE STREAMS

### CURRENT:

Revenue from liquid organic fertilizers for agricultural use.

### FUTURE:

Expansion into powdered fertilizers, pharmaceuticals, cosmetics, and animal feed.

### CARBON CREDITS:

1 ton of Sargassum offsets 1.2 tons of CO<sub>2</sub> and creates carbon revenue.

# SUSTAINABILITY

## IMPACT THAT MATTERS

**1,000+ Tons**  
of Sargassum Processed Annually:

Reducing coastal pollution, restoring marine biodiversity, and protecting ecosystems.

### Circular Economy:

Transforming algae waste into valuable bio-products, advancing the EU Green Deal.

### Meeting EU Goals:

#### DRIVING THE EU GREEN DEAL

by promoting circular economy and sustainable farming.

#### BIO-STRATEGY 2030:

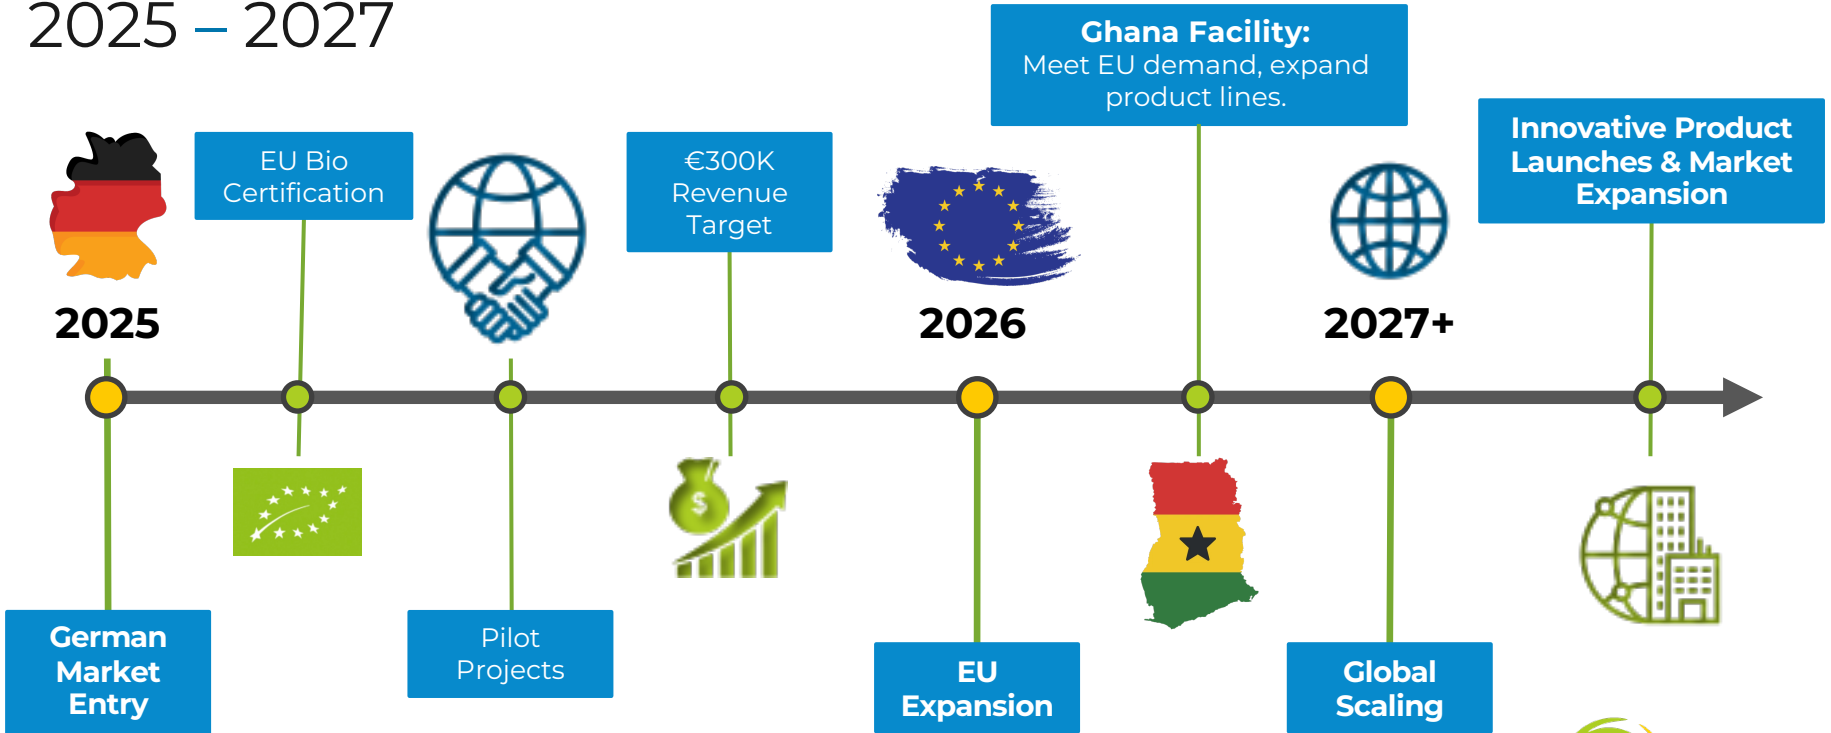

Supporting Germany's Bio-Strategy to expand organic farming to 30% of farmland by 2030.

# ROADMAP

2025 – 2027

# COMPETITIVE ADVANTAGE: UNMATCHED MARKET POSITION

## ZERO RAW MATERIAL COSTS

No supply chain risks, no cultivation expenses. Scalable without rising production costs.

## SUPERIOR PERFORMANCE & MARKET FIT

+35% yield boost, +297% phosphorus absorption. Proven, revenue-generating solution.

## ESG & POLICY TAILWINDS

Carbon-negative: 1.2 tons CO<sub>2</sub> absorbed per ton. Aligned with EU Green Deal & Biodiversity Strategy.

## UNMATCHED SCALABILITY & FIRST- MOVER EDGE

No farmland dependency → Unlimited growth. Proprietary Enzymatic Technology → Competitive moat. First commercially available Sargassum fertilizer in Germany & the EU.

## MULTI-INDUSTRY EXPANSION & M&A POTENTIAL

Beyond fertilizers: 27 future applications (Pharma, Bio-Energy, Feed). Prime for B2G adoption & AgTech/ClimateTech acquisitions.

# TEAM & PARTNERSHIPS

**Max Berreyesa**  
CEO

Expert in Business Development, Circular Economy, and Scaling Sustainable Ventures.

**Annegret Braun**  
Project Manager

Specialist in Market Development, Team Leadership, and Large-Scale Project Execution.

**Alex Gust**  
Co-Founder

Expert in agricultural economics and sustainable farming practices.

## STRATEGIC PARTNERSHIPS

**FiBL**

Research & Funding

**Bioland<sup>®</sup>**

Organic Market Access

**demeter**

Biodynamic Leadership

# YOUR INVESTMENT:

## €1M Unlocks €20M in Grants

### Unique Market Opportunity:

The first **organic fertilizer** from **Sargassum**, targeting Europe's largest organic market with growing demand.

### Scalable Growth:

Achieve **€3.4M** revenue with 0.5% market share by 2026, scaling to **€20M –€36M** by 2030.

### Leverage Effect:

Your **€1M** investment unlocks up to **€20M** in **EU programs** (Horizon Europe, LIFE).

### Measurable Impact:

**Reduces CO<sub>2</sub>**, regenerates soils, and opens new revenue streams through **carbon credits**.

# Shape the future of sustainable agriculture – tap into Europe's €5B bio fertilizer market.

Invest today to lead  
the bio-fertilizer revolution.
